

Date: 10/22/12

Dear President Zuma,

If you keep cutting the rhino's horns off then  
the babies will die, and if the babies die the rhinos  
will become extinct. I'll give you 3 good reasons  
you don't need their horns. 1 the horns don't even  
HELD or Make medicine. 2 The babies won't survive and  
die. 3 Rhinos will become extinct. Please don't  
cut their horns any more. Thank you.

Yours most sincerely,
