

15 October 2012

Dear President Zuma,

I am writing this letter in support of the campaign by OMG to bring attention to rhino poaching. OMG was founded by two school children under age 12, in America, and has generated worldwide support.

We are asking you to put more of your time and energy toward stopping one of the most disastrous wildlife tragedies unfolding anywhere in the world today. Would you please intervene and take the action they recommend.

Rhino toll to date: 458. This has now surpassed 2011; another year-on-year increase since 2007.

Save the Rhino Mr. President...Save YOUR Rhino, for South Africa and everyone. If two children can make an impact, then I believe you can too.

I thank you,

Yours most sincerely,

Susan Barrett
