

Dear President Zuma,

You, sir, are in a pre-eminent position to have a real and discrete effect on the practice of Rhino poaching.

You hold in your very hands the power to curb and possibly stop poachers from killing animals who are only trying to do what we do: grow up, raise children, and make the best of a tough life.

This is such an important thing that you can do, and such a wonderful legacy to leave your country, Africa, and the world!

You can increase revenue to your country by protecting these animals and having eco vacation tours and photography workshops where people could see the Rhino from a safe distance, and have a thrill of a lifetime while doing so.

Please, Mr. President, take a moment and think: Not only is this THE RIGHT THING TO DO, it can enrich your country and the world at large, and be a star in the crown of your legacy.

Thank you for your time and attention,

Sandi Bosley
