

Deaf president Zuma, please help

the

Black Rhinoceros from being killed for the
horns because it's not nice to kill them
for ~~them~~ horns and leave their body there
to suffer. Can you do something about it now?

Can you please tell the poachers to leave

them alone because it's illegal to cut their horns

off for money. If they're still going to kill them
please tell them why don't they just
shoot them instead of darting them

from Kyran Brennan and
Nahum Rasigatale
