

Date: 10/12/12

Dear President Zuma,

Please stop killing the rhino's. People
are killing the rhino's for their
horns. They think it has medicinal
value. Important Fact! Rhino's horns
have no medicinal value. There
are only a couple thousand rhino's
left. So please, Stop killing the rhinos.
Rhino's need their horns to lift
up their baby's heads so
the baby's can breathe

Yours most sincerely,
