Dear President

Greetings to my honorable president Jacob Zuma. I am hereby by confirming about what action can be taken in order to protect our one of the big five animal in our country which is the Rhino. Because i've realised that the number of Rhino's is decreasing because of being poached. So i personally asking if you as the director of our country can do something better to reduce this matter of poaching by maybe a Changing of the law. I will be happy if you take this into consideration. Thank you.

yours faithfully

Gatane Elizabeth Mamokela
