

Date: 27 November 2012

Dear President Zuma,

Please can you and the ANC make a law to not kill rhinos because slowly but surely poachers are poaching all the rhinos. The rhinos are all going to become extinct if we don't take notice. All the black rhinos are nearly extinct. The people of South Africa all don't want the big four we want the big five. People from other countries will know us as killers. Let the people of South Africa take notice about one of our big five and stop killing them.

Yours most sincerely,
