Dear President Zuma,

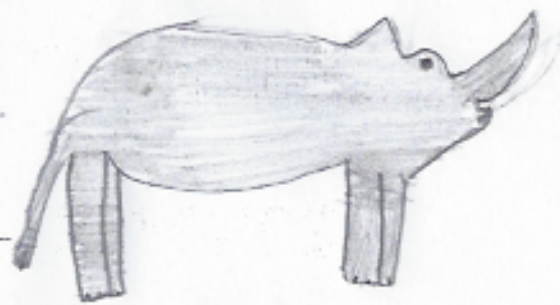

How do you think your billions of children and grand children say "oh there was nothing better than to see a black or white rhino". I went to the Kruger National park, I camped for three nights and the last day I was there I heard a gun shot and it was poachers killing a rhino just for it's horn but it doesn't do anything and yet it still is for thousands of dollars so pls help us to save our beautiful Rhinoceros!

Yours most sincerely,
