

Date: 27 November 2012

Dear President Zuma,

You should really start employing people to save  
our rhinos. I really want to tell my children that  
rhinos are the most beautiful things on earth. Please  
don't just sit in your chair doing nothing and just  
watching them die don't do nothing save our rhinos.  
Put a tracking device in their horns.

Yours most sincerely,
