

Date: 27 November 2012

Dear President Zuma,

Just imagine that one day we are talking to our grandchildren or young friend and we talk about the BIG FOUR, wait a minute big four. And we say what about the rhino and the response is what's a rhino?

Rhinos are almost extinct. We need to combine as a nation South Africa and help stop rhino poaching. There are only a few species of rhino left. Maybe if we put fencing in the Kruger National Park it could help.

BIG FIVE NOT BIG FOUR. We are starting a initiative at our school called Save the rhino, we sell rhino bracelets for R20 everyday to help rhinos.

Yours most sincerely,
