Dear President Zuma,

We need to save the rhinos! They don't need to die! We need to stop poaching before it gets out of hand! They are an endangered species because of it! We need to put the hunters in jail! We need to raise awareness to stop the big five from becoming the big four!!! We have to before they go extinct so that our grand children can see them before it's too late to see them again and we love them!

Yours most sincerely,
