

Date: 27 November 2012

Dear President Zuma,

In South Africa lot's of rhino's are being
poached. We are very upset because they are
now endangered species. We want to catch
the hunters and put them into prison and
make it stop because they are becoming extinct.
We want our grandchildren to see these beautiful
animals. This is happening because they use
the their horns for medicine and jewelery.
We want the equipment to keep the poachers
away. We want it to stay as The Big
Five **NOT** The Big Four.

Yours most sincerely,
