

Date: 27 NOV 2012

Dear President Zuma,

I personally think that rhino poaching is wrong and we should raise awareness

because of all the poaching and we should

stop selling equipment for this kind of

thing, otherwise they will become extinct

we want our grandchildren to see them

as well and we should use fencing in the

Kruger National Park and they should

not conceal arms and we should check

if people have weapons before they can

go into the Kruger National Park and if

they do have weapons they won't be allowed

Yours most sincerely,
