

Date: 27 November 2012

Dear President Zuma,

Rhinos are

Hunted for their horns

I hope they will not become extinct

No more poaching poachers

Our rhinos are important to us

Stop the rhinos are endangered

Just think if we didn't have any rhinos left

and our children had no idea about rhinos. We

don't want the big five turn into a big four. Rhinos

are being killed for their horns.

Yours most sincerely,
