

Date: 27 November 2012

Dear President Zuma,

I would like to talk about the rhino poaching. Our country tries so hard to save the rhinos but there are some people who just don't care that they are going extinct. We should show awareness for the rhinos as much as we can! We could have a rhino awareness week maybe at the zoo so people can put money towards the rhinos. I want my grandchildren to see rhinos and not think of them as dinosaurs, so lets try to stop rhino poaching! We want the big five not the big four!

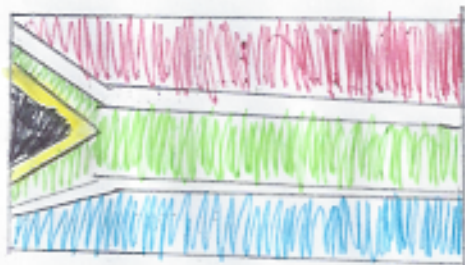

Yours most sincerely,
