

November 7, 2012

Dear President Zuma,

The poaching in your continent is outrageous (no offense)!

The rhinos are almost extinct and I have some ways to help:

- Rhino horns do not have medical ways you can use it.
- It's just as stupid to eat rhino horns to eat hair and dog finger nails.
- Make it illegal to poach any animal.
- Say that rhino horns do not help for medical issues. (It's true)
- And the same thing goes to elephant tusks.
