Dear President Zuma,

These perfect, precious
animals are getting killed
by mean, awful poachers with
big guns. Can you please send
out some of your army to
help them. Also you could
put cameras in trees and
watch and when the poachers
come fight them? Our EISE
these animals are going
to go extinct and people
in the future won't get to know
how amazing these creatures
are.

Yours most sincerely,
