

November 7, 2012

Dear President Zuma,

Please Make poaching rhinos illegal. Only because elephant horns are medical doesn't mean that rhino horns are. Rhino horns are made out of the same things<sup>as</sup> toenails and hair. If rhinos didn't have horns, they wouldn't be able to guide their young. And if rhinos were gone, their manure couldn't be used as fertilizer. So please make a law about poaching rhinos. From Jackson
