Dear President Zuma,

I just heard about this band
rino horn proplem, and it is
relly sad. The rino horn relly has
no special majic thing it is just
what are finger nails are made
of the same thing as rino
horns. If they kill the rino
then the baby with die. The thing
is that the poachers want money
and some of them belive in
werid mythes. So please try your best
to stop this poacher proplem.

Yours most sincerely,
