Dear President Zuma,

The Hundreds of Rhinos die
each year. We need your help
to protect them. Without
Rhinos so many other animals
that will die off. These animals
don't deserve these cruelties.
Not only is it terrible that
these people's religion affect
these animals but it doesn't
even have those magical properties.
Yet it's worse that these poachers
kill animals simply for money. →

Yours most sincerely,
