Dear President Zuma, Please help
save the rhinos by not killing them
for their horns which have
NO MEDICAL VALUE! Any
way, please do anything of
your will to stop killing rhinos
and letting poachers kill them.

Possibly you could get a group
of people to start a rebellion
against poachers? Maybe put up
fences on the fields that they
graze on so poachers can't get
them? Training people in the military
to arrest poachers might be
an option?

From, Oliver, lives in the U.S.
