Dear President Zuma,

I am writing to you  
to ask you to please get more involved  
with the illegal poaching of rhinos. I think  
that become more involved because the  
number of rhinos being killed each  
year is getting higher. If this keeps  
up then rhinos will soon become extinct.  
Not only this but when rhinos are killed  
they are only killed for their horn.  
This is a total waste because not only  
are you killing a huge animal but the  
horn has no proven medical value which is what it is killed for.

Yours most sincerely,
