Dear President Zuma,

Please stop hurting the rhinos. I know their horns can help you cure sicknesses but its just like eating finger nails and hair. Next generation we won't have rhinos and my kids will not get to see the rhinos. The rhinos dont deserve to be killed and deserve to be free. What did the rhinos do to you? They might have attacked a couple people but its their home too and they were probably trying to protect there babies and themselves so please stop hurting the rhinos.

From, Rebecca

From East Cooper Montessori Charter School
