Dear President Zuma,

Why are you killing rinos.  
 Their is no point in doing  
 that, it does not have  
 any nutrition in it. All you  
 are eating is hair and  
 finger nails. I would not  
 want to eat that. What  
 is the point of killing rinos.  
 So please STOP

There are only 60 of one  
 type of rino left.

Yours most sincerely,
