Dear President Zuma,

Coming up in the next few months I will be traveling to South Africa to document your amazing country, its people and wildlife on film. I've been inspired by two kids, Carter and Olivia, who will be delivering these letters to you, to step up and speak out against what is happening. Whether or not you like these animals or have ever even seen one does not matter in this situation. What is happening is morally wrong and we must do everything in our power to stop it. No matter what religion, country, origin or background we come from we all share one very real fact in common. We are all shepherds of this planet and must not only coexist with its wildlife but help it thrive.

Please protect these animals for the next generation and hopefully even beyond that. And I can promise you we will do everything in our power to help educate and promote awareness about the situation.

Most sincerely,
