President Jacob Zuma
c/o One More Generation
P.O. Box 143627
Fayetteville, GA 30214

Dear President Zuma,

I write to you with deep concern of the massacre of rhinos and the extinction of this beautiful animal... you sir have the power to end this genocide... rhino horns serve no purpose in the world of medicine... mothers are massacre... babies orphaned and die... and so will the economy of your country... who will come when these majestic animals... rhinos, elephants, lions, leopards, cheetahs are gone from your country... they are beautiful animals and you should be proud to have these animals in the wild and free.

I feel as president this is your job...protect them...you have the last land on earth that is untouched by man ...how privileged you are... but when the last one is gone... there will be no more... the World is watching you sir... don't allow other countries especially Asian dictate to you what is allowed freedom and who will die... EXTINCTION IS FOREVER

Please Sir... Put A Stop To RHINO POACHING... Take a stand... and the world will back you.

Thank you.
