

Dear President Zuma,

The time to act is NOW. Our Rhinos are disappearing and will soon be a sad memory if governments do not get involved today! Rhinos are a symbol of this proud nation. They are one of the reasons millions of tourists visit this country!

Rhinos are the inheritance of our children. Let them not be destroyed by the apathy of the nations charged with taking care of them! Africa!

Mr. Zuma – Imagine our national parks without a Rhino... it is too terrible to contemplate!

Go down in history as the man who saved the world's rhinos for future generations! Be the man who made a difference. Stand up, Mr. Zuma, and be our country's hero. The time to act to save our rhinos is NOW. Today. This minute!

Joan
