

Date: 01.09.13

Dear President Zuma,

Did you know that the Javan Rhino is down to 60? Well that has a lot to do with people standing back and doing nothing. We could make better security along with more harsh punishments.

The thing is, horns have no medicinal value, which makes no sense. If a mom rhino dies, the calf loses it's will to survive. Isn't that sad? We need your help.

Yours most sincerely,
