Dear President Zuma,

You can change the world! I've heard
that there is an increased demand
for Rhino horns. An average of 2
Rhinos are killed a day! The horns have
no medical value and people still sell
it to other countries. You can make
a difference by having better security
at airports so no one can sell it to
other countries. Also make sure no
poaching is aloud. If so they should
be arrested. Thank you so much for
your support. You really can change the world!

Yours most sincerely,
