Dear President Zuma,

We have to save the Rhinos. The
animals might not be here when I
have kids. They'll be dead. The poachers
must be stopped. They should be
executed if they get caught. The
poachers kill the rhinos just because
they think it does something for them.
It has no value to people. The babies
go looking for their mom, but can't
find her. Then they lose the will to live.
An average 2 rhinos die each day. Rhino

deaths have effects on other animals. The
Rhinos clear paths for them, last of all you need way
better security. Stop the poachers. Save the Rhinos!!

Yours most sincerely,
