Dear President Zuma,

Please stop the poaching of rhinos. We need them in our ecosystem, they help other species live and thrive. If you're looking for suggestions I have some. Send information to schools to let kids read about this crisis, please! Last year 281 rhinos were killed! Just for their horns, which doesn't cure cancer at all it's been proven. Calf rhinos and their mothers are both often killed, sometimes if the mother is killed the calf will call to mother for months not knowing she is dead. Please no more orphan rhinos!

Yours most sincerely,
