

#574

Date: 1-7-13

Dear President Zuma,

I care for the rhinos! Poaching is a bad thing. Do you know how many baby rhinos parents have died when they were maybe a few months old? I think the babies could die after a few days without their parents. Do you know how many rhino species have gone close to extinction because of poaching?

I know the black rhino is close to extinction. You should stop poaching because horns have no medicine value either! Please stop poaching!

Yours most sincerely,
