Date: 1-8-13

Dear President Zuma,

Can you please stop poaching the  
rinds. If you don't stop, then they'll  
be no more left, and how can we  
learn about them in the future?  
Plus, they're a big part in the  
food chain, and without the  
rinds, the food chain would be  
ruined. The horns aren't even  
medican. They need their horns  
to carry their babies. How else  
can they carry their babies? They  
need it for self defence.

Yours most sincerely,
