Dear President Zuma,

Please make it illegal to poach Rhinos.
The rhino are in danger of becoming extinct.
It would be better if we had more rhinos.
The rhinos horns do not have any medicinal
value so there is no reason to continue
killing them just for their horn.
If people continue to kill the rhinos
it will change the ecosystem for frogs and
insects. Many times calves are orphaned
because of poaching. Please stop this
terrible thing from happening and
save the rhinos.

Yours most sincerely,
