Dear President Zuma,

do you want more tourists or more money to come
to your country, because people want to see rinos.

I have collected a few reasons for you to do
something more about rino poaching. My first
reason is because rinos belong to everyone in
the world not just your country. You see
people love rinos. I saw a rino poacher
with 22 rino horns that's 11 rinos dead.

Also your country is known for animals
if rinos go extinct it will affect the whole
food chain and there goes your animals
and tourists. Rino horns have no medical
value. So allowing rino poaching is
a waste of lives and peoples' feelings pure
and also YOUR MONEY!!! You could put
trackers on some rino horns to help
catch poachers!

→ see back

PLEASE STOP RINO POACHING!!!

Yours most sincerely,
