Dear President Zuma,

Here are three reasons to stop rhino poaching. One, is rhinos clear paths for other animals. Animals need to get around like us. Second, is they use their horns to use self-defense. Imagine if you got your hands cut off, you wouldn't be able to do many things like a rhino do. Rhino horns have no medicine value. Rhinos need their horns for their food chain. You should hire more men, and put bigger fines, and more time in jail.

Yours most sincerely,
