Dear President Zuma,

poaching is bad. On average two rhinos are killed every day through illegal and cruel poaching. In many cases the horn is hacked off with the rhino is still alive. If we don't save rhinos then who will. You will not have tourists and you will lose money. You can get high tech cameras and trip fences. Also you can get more security. Think about the rhinos keep the rhinos alive. Then there would be no rhinos. Stop killing rhinos.

Yours most sincerely,
