

Date: _____

Dear President Zuma,

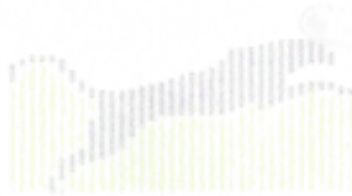

I would like you to stop cutting off rino's horns. See it's not helping with medicine. So please just stop. There horns is how they carry thure babies. And thure horns are how they protect thure self and thure kids. So for my sake please stop taking the horns away. The more you cut horns off the more they die. So please stop or else they will become extinct.

Yours most sincerely,
