Please do not kill anymore rhinos. Please also increase border security to help the rhinos.

Rhinos are awesome & cool creatures. If you let people kill rhinos we will be sad, & the rhinos will be extinct. Even though some people need medicine from the rhino's horn, please do not believe that Asian culture.

Please help the rhinos.

The whole

World (except china)  
is counting on you!

Sincerely,

June kang
