Dear President Zuma of South Africa,

Our class has been studying  
how the rhinos of South Africa  
are greatly endangered. We want to  
save this beautiful animal for this  
generation and future generations.

My husband and I visited your  
beautiful country on vacation and  
spent several days in Kruger Park  
where we saw many rhino. This was  
about 6 years ago. Are these beautiful  
creatures still alive today? Maybe  
not.

Please do all you can to  
tighten the laws, increase security and  
educate your country to save the rhinos

Sincerely,

Beth Pullman  
Teacher, Seigakuin School
