Dear President Zuma,

I am writing to you on behalf of families all across The United States of America asking for your support to stop the senseless poaching of rhinos in South Africa. Your country has been given an amazing gift of these beautiful and important creatures and as Americans we now plead for you to treasure these gifts and protect the future of this and all animals. I urge you to take the necessary action to stop the poaching of rhinos in your country and by doing so to protect their future on our planet.

Sincerely,
Billy, Lisa, and Emily Pizza
"Laughing Pizza"
