

Date: 2-1-13

Dear President Zuma,

You are the ruler of South Africa and the rhinos poaching countries to be a threat for rhinos. When the people cut off the rhino's horn they die. Then the people cut off the baby's horn. Then they die. Efforts to protect them needs to be coordinated between governments. Don't you care about your rhinos? Please can you stop the people from cutting off their horns?

Yours most sincerely,
