Dear President Zuma,

I am writing this to try and persuade you to stop the poaching of rhinos! In 2007 only 43 rhinos were poached but in 2012 600 rhinos were poached. Did you know there is no scientific proof that rhino horns have any medicinal value. Also babies rhinos have to stay with their moms until they are 4 years old. I think you need to convince your government to stop the poaching of rhinos!

Yours most sincerely,
