Date: January 30, 2013

Dear President Zuma,

Why are people killing so many rhinos? I've  
heard that people are poaching rhinos. I think  
you should do something about this because  
I think rhinos should be treated the way  
you want to be treated. As the president of  
South Africa, I want you to do something  
to make people stop killing rhinos. Can you  
believe 608 rhinos were slaughtered in  
2012? We are the only predator of rhinos.  
Rhinos are the only animal on Earth that  
have a horn on their nose. They are unique  
so we shouldn't even want to kill them. →

Yours most sincerely,

Dear President Zuma,

Rhinos are an important part of their ecosystem. Other animals rely on them. Please make people stop killing rhinos.
