

Date: 1-28-13

Dear President Zuma,

I am writeing, to you to persuade you to stop the poaching of rhinos!!! Did you know baby rhinos have to stay with their mothers for at least 4 whole entire years?! Rhinos are needed to keep the life cycle or ecosystem going in south africa. In 2007 13 rhinos were poached in a year. By 2012, 600 rhino horns were made of protein keratin which is what finger nails and hair is made of.

Yours most sincerely, I think that your government should stop the poaching of rhinos!!!
