Dear President Zuma,

Hundreds of white rhinos are being  
brutally poached each year. Because you  
are the President of South Africa,  
I think that you should put the  
people in jail for longer. Rhinos help  
other animals too. They help the birds  
that can't get their own food. Also  
the baby rhino needs his mother because  
they can't protect themselves until  
they're three. Rhinos are the only  
animals that have horns on their  
nose too.

Yours most sincerely,

Dear President Zuma,

If poachers keep killing all of  
the rhinos they will be extinct!  
Rhinos live up to 50 years  
and if they won't have a good  
life like they're supposed to. So  
please don't let rhinos become  
extinct.

Yours most sincerely,
