THE CAMPAIGN:

This campaign asks individuals, schools and businesses to take the OneLessStraw pledge and go strawless for 30 days (or offer alternatives).

OUR MISSION:

The OneLessStraw campaign strives to educate the public about the dangers of single use plastic straws, its effects on our health, our environment, and our oceans.

HOW YOU CAN HELP:

Join us to help eliminate plastic drinking straws from our landfills, our streams, our oceans, and our beaches.

- Take the [OneLessStraw Pledge](#).
- Encourage your favorite [business](#) or [school](#) to take the pledge and to only provide plastic straws on request. Also ask for them to use a [reusable option](#).
- [Become a Sponsor](#) of the OneLessStraw pledge campaign.

We have created these OneLessStraw assets to be used by you to show your support of the campaign and to help spread the word about the dangers of plastic straws. Most materials are also available in Spanish. *As a thank you for taking the #1LessStraw pledge, we have partnered with [Simply Straws](#) who has agreed to offer everyone who signs the [OneLessStraw pledge](#) a FREE reusable glass straw (offer excludes shipping) to help them get on their way to never needing another plastic straw.*

Empowering Youth Can Save Our Oceans

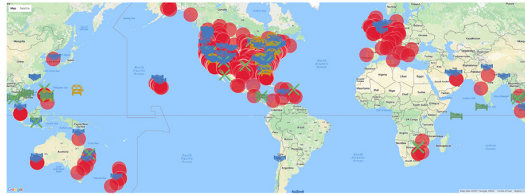

In Nov of 2016, [One More Generation](#) founders Olivia (14) and her brother Carter (16) launched their global [OneLessStraw Pledge Campaign](#) in an effort to help clean up our environment and educate people on the harms of using single use plastic straws.

Some interesting facts: Did you know that in America, we are using an estimated **500,000,000** plastic straws every single day? That is the equivalent to 1.6 straws for every man, woman and child living in this country every single day. If you were to take an entire day's worth of plastic straws, they would fill up over 127 school busses. That is like over 46,400 school buses full of one-time use plastic straws that are ending up in our landfills and waterways every year. Sick isn't it?

Since the launch of the campaign we have had over 3,000 people from over 44 countries around the world sign our on-line pledge form stating that **"they promise not to use a single use plastic straw for at least 30-days"**.

Almost 300 partners from around the world have also joined their [OneLessStraw Partners Page](#) and helped to share their initiative with their fans. We have had

schools, restaurants, resorts and even zoos and aquariums sign-on showing their support for this important issue. If your organization would like to be listed as a partner, just email us your logo and website link you want associated with the logo for consideration. Olivia and Carter realized that reducing our plastic footprint could be very easy to do; we just need to say 'NO' to single-use plastics such as straws. To encourage everyone to stop using single use plastic straws, we have partnered with the folks at [Simply Straws](#), who has a great offer: they will send everyone who signs our [OneLessStraw pledge](#) a coupon for a free glass reusable drinking straw (excluding postage) to help them stay plastic straw free forever.
